53 & 55 SPARKS STREET

OTTAWA, 1ST SEPTEMBER, 1909.

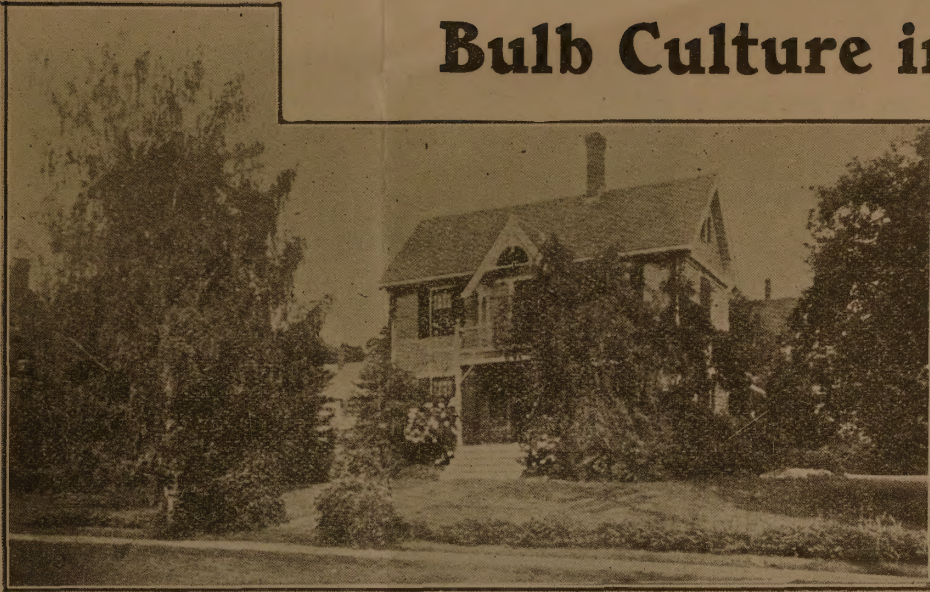

IN presenting our FOURTEENTH ANNUAL BULB CATALOGUE we beg to thank our Customers for their liberal patronage in the past, and we solicit a continuance of their confidence in the future, and we ask any grower of bulbs, or any who would like to grow bulbs successfully, to give us a trial order. We have now been extensive growers of bulbs long enough to appreciate QUALITY in bulbs, and we know from years of personal experience the marked difference there is between FLORISTS' STOCK and SEED HOUSE STOCK. We only import High Grade Bulbs suitable for florists. These bulbs are the first selection of even, well matured stock and they are consequently higher in price. We require so many thousands, however, for our own use, that we can give our customers not only the benefit of the best stock, but at prices of ordinary seed house stock.

Our stock of Decorative and Flowering Plants is now complete and in fine condition, while that intended for Cut Flowers promises a profusion of blooms. Artistic Floral Work is a Specialty with us. All orders will have our careful attention and prompt delivery. Write, wire or telephone orders.

At prices quoted on dozen rates and under, we shall forward bulbs free of charge to any address in Canada. Bulbs catalogued at 100 rates, plants and other articles expressed at customer's expense.

GRAHAM BROS.

Bulb Culture in the Home

Although the cultivation of Bulbs both indoors and outdoors, has increased enormously in the past few years, yet there are many—indeed, the great majority of people—are still ignorant of this pleasant pastime. Nothing cheers the gloomy days of a long and tedious winter more than a few gay and sweet-smelling flowering bulbs in the home. There is no mystery about their cultivation. Anyone can succeed in flowering to perfection good sound bulbs. The following simple hints may be useful to the beginner.

HINTS ON BULB CULTURE.

The bulbs enumerated in this catalogue (particularly the Dutch and French) may, for the purpose of the amateur, be divided into

three classes, viz.: 1. Those best adapted for house culture. 2. Those best adapted for the garden, and 3. A combination class—Those adapted for either the former modes. The first named class may again be divided into early and late blooming bulbs, the former being available at or before Christmas, and the latter from the middle of January until April or May. For Christmas blooming, only early Roman Hyacinths, Paper White Narcissus and Chinese Sacred Lilies should be planted. For general house culture the foregoing, together with the various Hyacinths, Polyanthus-Narcissus and Daffodils, may be successfully grown. While large numbers of Tulips are grown by florists for winter flowers, the average amateur will find them difficult to manage.

For house culture pans are more effective than pots; a 5-inch pan holding one Dutch Hyacinth; a 6-inch pan holding five Roman or Dutch Pan Hyacinths, and for Narcissus larger pans should be used.

When planting use any **light, moderately rich soil** (avoiding any manure that is not thoroughly decomposed). We can supply a Special Compost at 25c. per bushel. Fill the pots or pans loosely almost to the top, press the bulbs into the soil so that only about one-quarter will show above the surface, strike the pot sharply to settle the soil, water thoroughly and place away in a **cool dark situation**. The ideal situation is outside (their native soil) covered with sufficient leaves or other material to prevent severe freezing. But as in the winter they are somewhat difficult to get at if treated thus, the next best place is a **cool cellar**. The bulbs being covered with **three or four inches of leaves, sawdust or sand to exclude the air and retain moisture**.

Examine them occasionally to see that they do not become dry, and keep them two or three months in the dark before bringing them to the light. As the leaves and flowers develop do not stint the water. Keep them cool even then and they will help to cheer the winter's gloom wonderfully. Freesias and Easter Lilies do not require to be started in the dark.

HYACINTHS GROWN IN GLASSES.

For glass culture highest grade bulbs only should be used. Clean out your glasses thoroughly. Fill the glasses nearly full with soft water, and place the bulb so that its base nearly touches the water. The glasses may then be placed in a box in a cool, dark cellar, and covered with leaves as before mentioned. Look at them now and again and replenish the water if it is offensive, keeping it up to the same level, but **not in direct contact with the bulbs** or the latter may rot. Leave your glasses in this position for two months or more, bringing them into the light to flower as they are wanted.

BULBS GROWN OUTSIDE.

Hyacinths, Tulips of all kinds, Crocus, and many varieties of Daffodils, are perfectly hardy outdoors. For outside culture (the Tulip being pre-eminently the most popular), plant thickly and deeply—six inches apart and six inches deep—except Crocus and other small bulbs, which should be planted at less depth—early as possible in October. Cover with a few inches of litter the end of November. Remove same first thing in spring, and Nature will do the rest.

ONE DOLLAR COLLECTIONS

OF HIGH GRADE FLOWERING BULBS.

For the benefit of those who are at a loss in selecting suitable Bulbs for House and Outdoor Culture, we offer the following collections of what, in our own experience, we consider the most satisfactory varieties.

On the receipt of \$1.25 we will mail either collection to any address in Canada. When not posted, price \$1.00 each.

Collection for House Culture

- 6 Early Roman Hyacinths
- 6 Dutch Hyacinths
- 6 Pan Hyacinths in two colors
- 6 Paper White Narcissus
- 6 Best Forcing Tulips
- 6 Trumpet Princeps Narcissus
- 6 Mammoth Freesias

Collection for Outdoor Culture

- 25 Double Mixed Tulips
- 25 Single Mixed Tulips
- 50 Crocus, Giant Flowering
- 25 Double Parrot Tulips
- 25 Narcissus Poeticus Ornatus

The above bulbs must not be confounded with the low grade cheap bulbs generally sent out in collections. OURS ARE STRICTLY FIRST CLASS.

Easter Lily

Roman Hyacinths should be planted as early as possible; from 3 to 6 bulbs in a pot make a good display.

Extra selected, 13 to 15 centim.....6c. each, 50c. per doz., \$3.50 per 100

First size, 12 to 15 centim.....5c. each, 40c. per doz., \$3.00 per 100

For Coloured Roman Hyacinths,
"Pan Hyacinths" or Dutch Romans,
see next page.

The Bulbs enumerated on this page should be planted as early
in September as is convenient.

Lilium Harisii or Easter Lily

Are the first bulbs to arrive.

They should be potted as early as possible.

These bulbs this season are solid and healthy.

This is the best and most floriferous lily for winter blooming, and is one of the most profitable flowers than can be grown by florists. Excellent for pot culture.

TRUE BERMUDA GROWN BULBS.

	Per doz.	Each.
Bulbs 7 to 9 in. in circumference.....	\$1 25	15
Bulbs 9 to 11 in. in circumference.....	3 00	30

LILIUM CANDIDUM, or ST. JOSEPH LILY.

Extra large bulbs.....	\$6 00	\$1 00	10
------------------------	--------	--------	----

Freesias

Refracta Alba

OR AFRICAN LILY OF THE VALLEY.

Easily cultivated indoors and one of the prettiest and sweetest scented winter flowers.

This is really not a bulb, but a corm, consequently should not have the cold, dark treatment of Dutch bulbs. Plant 5 to 12 in a pot and grow in the light from first to last. Water sparingly until well established.

Mammoth Bulbs, 20c. per doz., \$1.25 per 100.

Freesia

In all classes of Hyacinths we will
sell 25 Bulbs at the 100 rate.

By Express only at Purchaser's
expense.

Early White Roman Roman Hyacinths

Roman Hyacinths are the
only Hyacinths
that will bloom satisfactorily
for Christmas

Pan Hyacinths or Dutch Romans

Sometimes called Dutch Roman Hyacinths. They are not Roman Hyacinths, however, but the regular Dutch Hyacinths, same as other named varieties, except that the bulbs are younger and smaller. They are an extremely pretty class, giving fine effect when from 4 to 10 bulbs of one variety are planted in a pan.

SENT PREPAID BY MAIL AT SINGLE AND DOZEN RATES.

Pteris Magnifica

DECORATIVE PLANTS

For Conservatory

and

House Culture

Aspidium Tsussimense

Azalea Indica—We offer a fine selection of well-shaped specimens of these showy plants. First size, \$1.25; large size, \$1.50 each; extra size, \$2.00.

Asparagus Plumosus—One of the finest decorative plants, not only for its elegant and graceful foliage, but for its durability when cut. 25c. each.

Asparagus Sprengeri—A beautiful variety of graceful, drooping habit, especially adapted for a pot plant. 10c. and 20c. each.

Araucaria Excelsa (Norfolk Island Pine)—Unrivalled in the plant world for symmetry of form, grace and beauty of foliage. First size, \$1.00; larger plants, \$2.00.

Begonias—Including Rex in variety, Metallica, Thurstoni, De Lesseps, Incarnata, Vernon, Alba Picta, etc. Small plants, 10c. each; fine plants for table or window decoration, 25c. and 50c. each.

Chrysanthemums—Nice stocky plants of the varieties most suitable for pot culture (season of blooming from middle of October to end of November). 6 and 7-inch pots, 50c. and 75c. each.

Cyclamens—These beautiful plants are a wealth of rich bloom during the winter. 50c. and \$1.00 each.

Dracæna Indivisa (Fountain Plant)—Fine hardy and graceful plant for house culture. 25c. and 50c. each.

Boston Fern.

Ferns—Our stock of house ferns this season is large, varied and in fine condition. We offer only those varieties that are most suitable for house culture, including Adiantum Cuneatum, Cyrtomium, Nephrolepis Piersonii, Nephrolepis Bostoniensis (Boston Fern), Nephrolepis Cordata Compacta (Sword Fern), Nephrolepis Scottii, Pteris Cretica, Pteris Ouvrardi, Pteris Tremula, Magnifica, Aspidium, etc. Plants, 10c., 15c., 25c., 40c., 50c., 75c., \$1.00 and \$1.50 each.

FERNS IN PANS—These are constantly growing in popularity for table and window decoration. We can supply pans of mixed ferns prettily arranged at 30c., 40c., 50c. and 75c. each.

Primulas—There is probably no blooming plant grown that will give so much pleasure for so long a season, with so little care and expense as a Primula. Our stock this season, from high grade seed, is very promising. Price, 25c. each.

Primula Obconica—A profuse blooming primrose bearing on long spikes 10 to 15 flowers; white, shading to blue. 25c. each.

Rubber Plants (Ficus Elastica)—One of the finest plants for parlor decoration. Its thick leathery leaves enable it to stand excessive heat and dryness, while their imposing size and deep glossy green always present a cheerful and effective appearance. Price, plants 10 to 12 inches high, 50c. each; 15 to 18 inches high, 75c. each; plants 2 to 2½ feet high, \$1.50.

Pandanus Utilis (Screw Pine)—Large plants of these are very handsome. Price, 50c.

Pandanus Veitchii—A finer and variegated form. \$2.00 each.

Cyrtomium Falcatum

Asparagus Plumosus.

Ficus Elastica.

Latania Borbonica.

Palms

Palms have become an almost indispensable feature in all decorations, whether for apartments, conservatories or window gardening. We have this season, a larger and better stock than ever before. The varieties we offer are selected as being the best adapted to general cultivation in house or conservatory.

Cocos Weddelliana—This beautiful palm is unquestionably the most graceful in cultivation. It is admirably adapted for centres of jardinières, and for dinner table decoration it cannot be excelled. Price, 50c., 75c. and \$1.00 each.

Kentia Belmoreana—This, and the following, are undoubtedly the most satisfactory and most effective for house culture. They are capable of standing more ill usage than any other class. Price, \$5.00, \$3.50, \$2.00, \$1.25 and 50c. each.

Kentia Fosteriana—A more vigorous grower than the preceding variety, plants the same price averaging about one-quarter larger than it, otherwise the appearance is almost identical. Price, \$5.00, \$3.00, \$2.00, \$1.25, 50c. and 25c. each.

Latania Borbonica—This is the typical Palm, and has, perhaps, in the past, been more largely used than any other. Its large, deeply-divided fan-shaped leaves are very attractive, while the plant is extremely hardy. Price, \$2.00 and \$1.50 each.

Phoenix Reclinata—A large growing, graceful palm of easy cultivation, large specimens being especially effective. Price, \$3.00 and \$1.50 each.

Mushroom Spawn

Mushrooms can be easily grown in winter in any root cellar of even temperature.

Fresh English Mushroom Spawn—Per brick, 15c.; per dozen bricks, \$1.25; per 100 bricks, \$8.00—by freight at purchaser's charges. Twenty-five bricks at 100 rates. Special quotations to florists for large quantities. Add 5c. per brick for postage.

Horticultural Sundries, Etc.

THE LAWN

In Ottawa, at any rate, probably no department of the home outdoors gives the householder more concern, more work and more worry than the Lawn. The question is very frequently asked us: What shall I do with my lawn to make it look green and fresh? There is no gainsaying the fact, that when shade trees are so numerous, so absurdly numerous, as they are in this city, that the maintenance of a lawn in good condition, is somewhat of a problem, not only on account of the dense shade of the trees, but the everlasting sapping of any nourishment in the ground by the fibrous roots. There is no manner of doubt but what the average lawn is **starved**. Constant cropping, incessant watering and sousing, combined with continual exhaustion of the soil by the roots of the trees, and nothing given the soil in return is the inevitable consequence.

Now is the time to dress up a lawn with some Lawn Grass Seed and some Fertilizer as a lawn dressing to thicken and strengthen the grass for the winter—to help it through the winter without winter killing. Barnyard manure, even if it could be had in a well decomposed state, is objectionable as a weed disseminator and is decidedly repulsive and loathsome, but as a straight fertilizer is not so valuable for this purpose as a commercial fertilizer. We recommend for this purpose therefore the liberal use of our **Lawn Dressing**, price \$2.50 per 100 lbs., 3c. per lb., and our **Central Farm Lawn Grass Mixture** at 20c. per lb.

BIRD SEEDS

Graham's Bird Seed Mixture—is deservedly popular, it is composed of the finest and boldest Spanish Canary re-cleaned German Rape, Hemp and Japanese Millet and Lettuce Seed. This mixture is pure and fresh and nothing is so conducive to the health and cheerfulness of our feathered pets than clean, good seed—nothing so bad as cheap, badly-filled, light and dusty seed. To use our mixture once is to use it always, for it is the best value your money can purchase.....Lb., 8c.; 3 lbs. 20c.
